

Treat Food poisoning with Bind (activated charcoal) and Prosynbiotic. Consult your health practitioner for recommended dosage.

**Bind** lowers the body's toxic exposure

- Optimizes drainage-elimination of heavy metals, chemicals, toxins, and bio-toxins.
- Provides toxin and heavy metal binding matrices such as activated carbon and purified humates to support natural toxin elimination.

**ProSynbiotic** is a synergistic blend of four research-supported probiotic strains and two prebiotic fibers to support gut flora and overall intestinal health.

- Contains research-supported strains of lactic acid bacteria (*Lactobacillus* and *Bifidobacterium*), and *Saccharomyces cerevisiae* var. *bouardii*
- Contains inulin and galactooligosaccharide (nondigestible carbohydrates), both of which are used by probiotic bacteria as food
- Useful in maintaining a healthy gut microbial environment
- Helps support the body's natural absorption of calcium and magnesium
- Improves nutrient digestion and absorption
- Supports normal bowel regularity and consistency
- Supports the body's natural immune system response function
