

Treat heartburn with a combination of Zypan, Gastrex, and HiPep. Consult your health practitioner for recommended dosages.

Zypan[®] combines pancreatin, pepsin, and betaine hydrochloride to facilitate healthy digestion.

- Supports macronutrient digestion
- Supports gastric pH
- Includes stearic acid to coat the pancreatin, helping it to be digested in the correct area of the digestive tract
- Provides enzymatic support for protein digestion
- Supports the environment of the GI tract

Gastrex[®] supports digestion and stimulates cleansing of the upper gastrointestinal (GI) tract.

- Supports the body's normal tissue repair process
- Supports GI cleansing through the elimination of waste materials

HiPep contains Deglycyrrhizinized Licorice, Chamomile and Meadowsweet which are known to support peptic and lower gut health.

These herbs have been traditionally used in herbal preparations to:

- Support normal function of stomach acid secretions
- Promote healthy mucosal tissue within the upper gastrointestinal tract
- Promote healthy tone and function within the upper gastrointestinal tract
- Help relieve occasional indigestion symptoms of the gastrointestinal tract, including bloating and flatulence*

The combination of herbs in HiPep contains many compounds including flavonoids, sterols, phenolic glycosides and tannins. The essential oil contains α -bisabolol and chamazulene.
